Load generator sample, page 1 of 2

Merging, compressing and rasterising it should finish in well under a second.
This page exists only to give the PDF tools something small and valid to work on.
Every request is tagged with the app and a route template, never a raw identifier.
The load generator signs in once per virtual user and reuses the session cookie.

Load generator sample, page 2 of 2

Every request is tagged with the app and a route template, never a raw identifier. This page exists only to give the PDF tools something small and valid to work on. Merging, compressing and rasterising it should finish in well under a second.
